OBJECTIVE

Seeking Internship opportunities so that I can apply my knowledge and skills to make valuable contributions. I see myself as an organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet personal goals.

SKILLS

- Programming languages like C/C++, Java, Python etc.
- Problem-solving abilities using Data Structures and Algorithms.
- Well-versed in software tools including HTML, CSS, Javascript, Bootstrap and JQuery, among others.
- Worked on backend tools like Node.js, Express.js, MongoDB, MySQL, Mongoose and others.
- Good communication skills and the ability to listen carefully.

EXPERIENCE

- **IIT BHUBANESWAR** **June, 2022 - August, 2022**
  Internship Student
  Two months Summer Internship on project titled
  "Identification of Vulnerable Nodes and Links in a Network" using Data Structures and Algorithms in C/CPP.
- **Ecronsoft Pvt. Ltd.** **June, 2022 - July, 2022**
  Trainee
  4 weeks Industrial Training in "Core Java".
- **The Sparks Foundation** **March, 2023 - Present**
  Web Developer Intern

PROJECTS

- **Tindog clone(HTML and CSS)**
  In this project, I used software tools including HTML and CSS to create a clone of the tindog website.

- **Dice Game**
  This project is a dice game between two players. In this , I used software tools including HTML, CSS and Javascript.

- **To Do List**
  It is a fully functional To Do List web application in which I used software tools including HTML, CSS, Javascript, EJS, Nodejs, MongoDB and Mongoose.

- **Basic Banking Application**
  This project is done during internship under The Sparks Foundation. There is a dummy database of 10 customers who can transfer money among them. I have utilized HTML, CSS, Javascript, EJS, Nodejs, MongoDB and Mongoose for creating this project.
